SAUMYA ALPESH PATEL

DATA SCIENCE

Bengaluru, Karnataka | +91 9137676144 | psaumya567@gmail.com
GitHub: github.com/saumyapatel792 | LinkedIn: linkedin.com/in/saumya-patel-dev

PROFESSIONAL SUMMARY

Detail-oriented Data Science graduate student with hands-on expertise in machine learning, deep learning, and data analytics. Proficient across the end-to-end ML lifecycle, encompassing automated data preprocessing, feature engineering, model optimization, and API deployment. Skilled in Power BI and Tableau for enterprise business intelligence. Exhibited peer-reviewed research on IoT in payment systems and authored technical publications on applied AI and generative models.

WEBSITES, PORTFOLIOS, PROFILES

- **LinkedIn:** linkedin.com/in/saumya-patel-dev (saumyapatel07)
- **GitHub:** github.com/saumyapatel792
- **Blog:** Medium – medium.com/@psaumya567

SKILLS

• **AI / ML:** NLP, TensorFlow, CNNs, Random Forest, XGBoost, Regression

• **Machine Learning:** Supervised/Unsupervised Learning, Hyperparameter Tuning, SHAP

• **Data Preprocessing:** Feature Engineering, Outlier Detection, Pipeline Optimization

• **R Programming:** Statistical Hypothesis Testing, Exploratory Data Analysis

• **Data & BI:** Power BI, Tableau, DAX, Matplotlib, Seaborn, MongoDB

• **Python Ecosystem:** Pandas, NumPy, Scikit-learn, FastAPI, Streamlit

• **Predictive Modeling:** Time-Series Forecasting, Risk Classification, Scoring Engines

• **Databases & Tools:** SQL (MySQL, PostgreSQL), Git, GitHub, Docker

EXPERIENCE

Data Science Intern | Prodigy InfoTech – Remote **03/2026 – 04/2026**

- Engineered predictive machine learning models using Python and R across 50K+ records, enhancing forecast accuracy by 18% and minimizing variance.
- Built 6 interactive Tableau dashboards to track key performance trends, accelerating cross-departmental decision cycles by 25%.
- Streamlined end-to-end data cleaning and preprocessing pipelines, eliminating 95% of data anomalies and missing records prior to modeling.
- Collaborated with cross-functional engineering teams of 6+ members to integrate analytics modules into production workflows.
- Spearheaded weekly sprint reviews and technical syncs, delivering milestone updates and aligning model metrics with stakeholder objectives.

Data Analyst Intern | Cognifyz Technologies – Remote **06/2025 – 07/2025**

- Processed and transformed 20+ enterprise datasets containing 75K+ transactions, resolving 98% of schema discrepancies for downstream analytics.
- Analyzed operational and revenue metrics to uncover core sales drivers, developing interactive Python (Plotly/Dash) dashboards that surfaced 15+ vital KPIs to guide leadership decisions.

PROJECTS

AI Government Grievance & Sentiment Triage Platform | *Logistic Regression, TF-IDF, Streamlit, FastAPI*

- Engineered a production-grade NLP pipeline using TF-IDF vectorization and Logistic Regression, achieving 92% classification accuracy across 5 government departments while scoring urgency via real-time sentiment analysis.
- Architected a role-based three-stakeholder workflow (citizen, officer, auditor) and deployed scalable FastAPI endpoints, cutting grievance resolution turnaround time by 40%.

Insurance Interactive Dashboard | *Power BI, DAX*

- Assembled a multi-KPI Power BI dashboard utilizing 25+ customized DAX measures to monitor $10M+ in policy issuance, premium collections, claims volume, and settlement velocity.
- Empowered executive leadership with real-time portfolio tracking, replacing static reports and reducing reporting latency by 65%.

Obstructive Sleep Apnea Decision Support System | *Random Forest, GradientBoostingClassifier, Streamlit*

- Formulated a Random Forest and Gradient Boosting framework for automated OSA risk prediction, attaining an 89% F1-score across patient test cohorts.

- Delivered an interpretable, clinician-facing Streamlit application integrating SHAP feature-level explanations to substantiate transparent diagnostic decisions.

India Open Government Data Analysis | *React, Python, Data Analytics*

- Evaluated 500+ datasets across 12 sectors from India's Open Government Data (OGD) portal, surfacing critical coverage gaps and 25% sector-wise reporting disparities.
- Constructed an interactive React interface to showcase transparency benchmarks, distribution patterns, and actionable data governance insights.

EDUCATION

M.Sc.: Data Science **Expected in 05/2027**
Alliance University – Bengaluru | **GPA: 9.6**

B.Sc.: Information Technology **04/2025**
Lok Jagruti University – Ahmedabad | **GPA: 8.71**

ACCOMPLISHMENTS & PRESENTATIONS

- **Competition Winner:** Winner, DATA BLITZ – The Excel Challenge 2026, Alliance University, Bengaluru (Jan 2026)
- **Conference Publication:** "Analysis of Internet of Things in Payment" – IFERP (ICRAECA), LJ University, Gujarat (Jan 2025)
